PROFESSIONAL SUMMARY

Passionate Frontend Developer with a strong foundation in React.js, JavaScript, and Firebase. Currently pursuing MCA, with a proven ability to build responsive and real-time web applications. Eager to leverage my technical skills and creative problem-solving to contribute to a dynamic development team

SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS, REST API Integration
Backend & Database: Firebase (Auth, Firestore), Java, SQL, MongoDB,
Version Control: Git, GitHub

PROJECTS

EmoConnect- Real-Time Anonymous Chat Application

- Developed a secure and anonymous chat web application using React.js and Firebase
- Implemented user authentication and real-time messaging using Firebase Authentication and Firestore
- Built an admin moderation system to detect and manage abusive content
- Designed a responsive UI with real-time features such as online/offline status and typing indicators

Weather App- Real-Time Weather Application

- Developed a weather application using JavaScript and OpenWeather API for real-time data fetching
- Designed a responsive interface to display temperature, humidity, and weather conditions dynamically

Random Chat App- Anonymous Chat Application

- Developed a chat application where users can connect with new people by scrolling and initiate real-time conversations
- Implemented dynamic user matching and interactive UI using JavaScript and modern frontend techniques
